

The high-value, cost-effective system retrofit.

The Guardian® GAW system is the high-value solution for homes and complexes that require a cost-effective system retrofit. These high EER, 14 SEER models are designed for use with R-407C refrigerant, feature industry-leading warranties and meet installation requirements across the U.S. and Canada.

COST COMPETITIVE

- Designed for lowest cost, low operating pressure R-407C refrigerant
- Time saving, fast change out
- Flexible installation options

ENVIRONMENTALLY SOUND R-407C

- R-407C Global Warming Potential (GWP) less than R-22 or R-410A
- Designed for the highest regional DOE efficiencies, 14 SEER/12.2 - 11.7EER

TRUSTED QUALITY

- Unmatched warranties include a 5-year Parts Limited Warranty and a 5-year Compressor Limited Warranty
- Designed, engineered and assembled in the United States specifically for R-407C
- Supplier quality: features Copeland scroll compressors

PAIRS WITH NEW OR EXISTING INDOOR EQUIPMENT

- Tin-coated copper and aluminum tube & fin evaporator coils designed to be installed with the system
- Over 1,100 systems matches available and certified with the DOE through the AHRI certified products directory

INDUSTRY-LEADING WARRANTIES

Competitors don't honor system warranties when refrigerant drop-in solutions are used. GAW systems come standard with 5-year parts and 5-year compressor warranty with no registration required.

All national and local laws and regulations apply. GAW air conditioners only available to licensed contractors and dealers, where licenses apply.
